

Özgür Balamir, Drilling Manager

Özgür designs, engineers, and manages the drilling and maintenance of geothermal wells. He formulates detailed drilling and workover plans, supervises drilling of exploratory and development wells, develops and manages drilling-services contracts and manages procurement. With experience in North, Central and South America, the Caribbean, the Middle East and Southeast Asia, he has on-site experience as a Drilling Supervisor, and analyzes drilling data to establish efficient drilling practices. Özgür was instrumental in the 80 MW expansion of the Kızıldere II geothermal project, delivering wells on time and within budget. In addition, he has experience with conventional and unconventional gas projects, and offshore drilling experience in the Black Sea.
